ABOUT US

Our business was born back in 1994 (formerly known as Mike's Woodshop) when we began manufacturing children's furniture and toys from a skyline garage in Poroti, New Zealand.

Upon offering our local Whangarei schools the opportunity to purchase some painting easels, one of the local principals asked if we could custom make something similar. We took up the challenge and since then we have grown and diversified from a small product offering to a comprehensive catalogue of custom built furniture manufactured in our Whangarei based factory, along with a wide range of complementary imported and locally sourced products.

We have a skilled and loyal team who take pride in the products we deliver and who strive to provide all our customers with quality, value and service.

We have a custom built factory in Whangarei with modern machinery that produces our product to a very high standard. Over the years we have also developed an importing side to our business, whereby we can provide a number of items direct to our customers at great prices, as well as quality components to help keep our products competitive in the market. All our imported products have been very carefully selected, ensuring that they are of a higher specification than any locally made product.

We also have a range of New Zealand suppliers that complement our own furniture to ensure we have a comprehensive range available. We are very loyal to our suppliers and therefore they support us and our customers.

As a customer of Educated Furniture you have our assurance that:

- Customer service and satisfaction is our priority
- We only use and supply top quality materials and our workmanship is at the highest level.
- We will bring you the best possible products at the most competitive prices.
- We can offer a customised design service - for all areas, including the classroom, staffroom, break out spaces, offices, administration areas and libraries.
- We manufacture furniture to your specifications.
- We are always happy to assist with designing and manufacturing bespoke equipment.
- We are always researching and testing new and innovative products that we can add to our product offering.
- We are always working on ways to improve our existing products as well as coming up with completely new designs where there is a gap in the market.

COMPANY UPDATE

Hayley Watters - In October last year we welcomed our new account manager Hayley Watters to the team. She is based in Hamilton and will be covering the Central North Island. A number of our customers will have already met her but she will be progressively making her way around all the schools in her territory to introduce herself and assist our customers with their furniture needs.

Jono Mills - We're also very pleased to announce that our account manager Jono Mills made the decision to shift permanently to the lower North Island late last year. This has allowed us to further extend our account manager coverage of the North Island with Jono now responsible for servicing all schools South of Taupo to Wellington. He will be making contact with all our existing customers and developing relationships with new customers over the coming months.

Company Rebrand - As you'll notice we've now successfully completed our rebrand to Educated Furniture. Note that our email addresses and our web address have changed but all other details stay the same, including our bank account, physical address and phone numbers. If you have any queries please do not hesitate to contact our office.

915 WHITEBOARD CABINETS

Optimise your storage with a practical and useable storage system, customised to your individual needs. We have a range of cabinet bases that include cupboards, drawers, cube crates & tote trays which enhance your unit, with the upper levels having adjustable shelving, hiding behind the sliding whiteboards.

Pick the sizes you require to make up the overall measurement, keeping this within the 1800, 2400, & 3600mm lengths.

All units are 2000 high x 400 deep with the interior shelf depth in the top section 290mm. Some of the width sizes may vary depending on your combinations. Now also the option for the 600 deep cabinets.

The cabinet incorporates aluminium framed sliding whiteboards that have a porcelain surface, complete with a Forever Surface guarantee. You can also upgrade for the new Porcelain Projection Board.

This is a modular system that can be shipped throughout NZ, and very easily assembled on site.
