Term 3 2020 - South Island Edition

Prices exclude GST. Prices may change without notice

EF GOES FREIGHT FREE!

Great news for our South Island customers, we're really pleased to announce we've been able to leverage our relationships with local freight companies to bring you freight free furniture! This means no more freight add-ons to your order.

There are some limitations to this great offer however; freight free only extends to total purchases over \$1000, and for customers located in main centres or on major transport routes. For everyone else, there are still significant savings to be had. These will be assessed on a case by case basis when you request a quote.

NEW SOUTH ISLAND ACCOUNT MANAGER

We're delighted to introduce our new South Island Account Manager, Lisa Corkindale.

Lisa has been serving the education sector for eight years. She brings us a wealth of experience and knowledge in relationship management, account management and has exemplary customer service.

She has a passion for education and is looking forward to working with our new and existing customers to create exciting and practical working spaces for students and teachers.

This is the first time we've had a permanent presence in the South Island and we're really excited we can now provide our South Island customers with the exceptional service, value and quality that we're known for.

ABOUT US

Our business was born back in 1994 (formerly known as Mike's Woodshop) when we began manufacturing children's furniture and toys from a skyline garage in Poroti, New Zealand.

Upon offering our local Whangarei schools the opportunity to purchase some painting easels, one of the local principals asked if we could custom make something similar. We took up the challenge and since then we have grown and diversified from a small product offering to a comprehensive catalogue of custom built furniture manufactured in our Whangarei based factory, along with a wide range of complementary imported and locally sourced products.

We have a skilled and loyal team who take pride in the products we deliver and who strive to provide all our customers with quality, value and service.

We have a custom built factory in Whangarei with modern machinery that produces our product to a very high standard. Over the years we have also developed an importing side to our business, whereby we can provide a number of items direct to our customers at great prices, as well as quality components to help keep our products competitive in the market. All our imported products have been very carefully selected, ensuring that they are of a higher specification than any locally made product.

We also have a range of New Zealand suppliers that complement our own furniture to ensure we have a comprehensive range available. We are very loyal to our suppliers and therefore they support us and our customers.

As a customer of Educated Furniture you have our assurance that:

- Customer service and satisfaction is our priority
- We only use and supply top quality materials and our workmanship is at the highest level.
- We will bring you the best possible products at the most competitive prices.
- We can offer a customised design service - for all areas, including the classroom, staffroom, break out spaces, offices, administration areas and libraries.
- We manufacture furniture to your specifications.
- We are always happy to assist with designing and manufacturing bespoke equipment.
- We are always researching and testing new and innovative products that we can add to our product offering.
- We are always working on ways to improve our existing products as well as coming up with completely new designs where there is a gap in the market.

INTRODUCING THE ENBOB FLOOR CHAIR

The New Way To Sit On The Floor

The ENBOB is an award winning, innovative floor chair, offering comfort for children, and adults when involved in floor activities. Teachers have commented that it encouraged them to sit on the floor during carpet activities, providing better interaction with the children on their level. Raising the seat off the ground also prevents fingers getting caught when moving in the chair. The uses for the floor chair are endless.

Our account managers have samples available to try so get in contact if you would like to check these out.

Specifications:

- Re-inforced polypropylene giving strength & durability
- Lightweight and extremely durable
- Ideal posture support and can be used indoors/ outdoors
- Fully washable

915 WHITEBOARD CABINETS

Optimise your storage with a practical and useable storage system, customised to your individual needs. We have a range of cabinet bases that include cupboards, drawers, cube crates & tote trays which enhance your unit, with the upper levels having adjustable shelving, hiding behind the sliding whiteboards.

Pick the sizes you require to make up the overall measurement, keeping this within the 1800, 2400, & 3600mm lengths.

All units are 2000 high x 400 deep with the interior shelf depth in the top section 290mm. Some of the width sizes may vary depending on your combinations. Now also the option for the 600 deep cabinets.

The cabinet incorporates aluminium framed sliding whiteboards that have a porcelain surface, complete with a Forever Surface guarantee. You can also upgrade for the new Porcelain Projection Board.

This is a modular system that can be shipped throughout NZ, and very easily assembled on site.

All 2000h and 400mm deep
